
ENVIRONMENTAL POLICY

Introduction

The Company believes that all businesses are responsible for achieving good environmental practice and operating in a sustainable manner. We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. It is our priority to encourage our customers, suppliers and all business associates to do the same, to help us deliver on our duty of care towards future generations.

Our policy is to:

- Wholly support and comply with the requirements of current environmental legislation and codes of practice.
- Minimise our waste and then reuse or recycle as much of it as possible.
- Minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Operate and maintain any company vehicles with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing.
- Reduce the number of journeys required by conducting online meetings wherever possible.
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any operational impacts on the environment and local community.
- As far as possible, purchase products and services that do the least damage to the environment and encourage others to do the same.
- Ensure that all employees understand our Environmental Policy and conform to the high standards it requires.
- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned.

Amendments to this policy

The Company will regularly review the policy to ensure that we are a green aware and environmentally friendly organisation.
